

Solvares Field Service SAP Adapter

The problem

You want to connect Solvares Field Service cloud-based Field Service Management solution to your SAP system? Without Solvares Field Service SAP Adapter, a time-consuming integration project with a customized solution is necessary. The development effort and costs are higher than when using a standard solution.

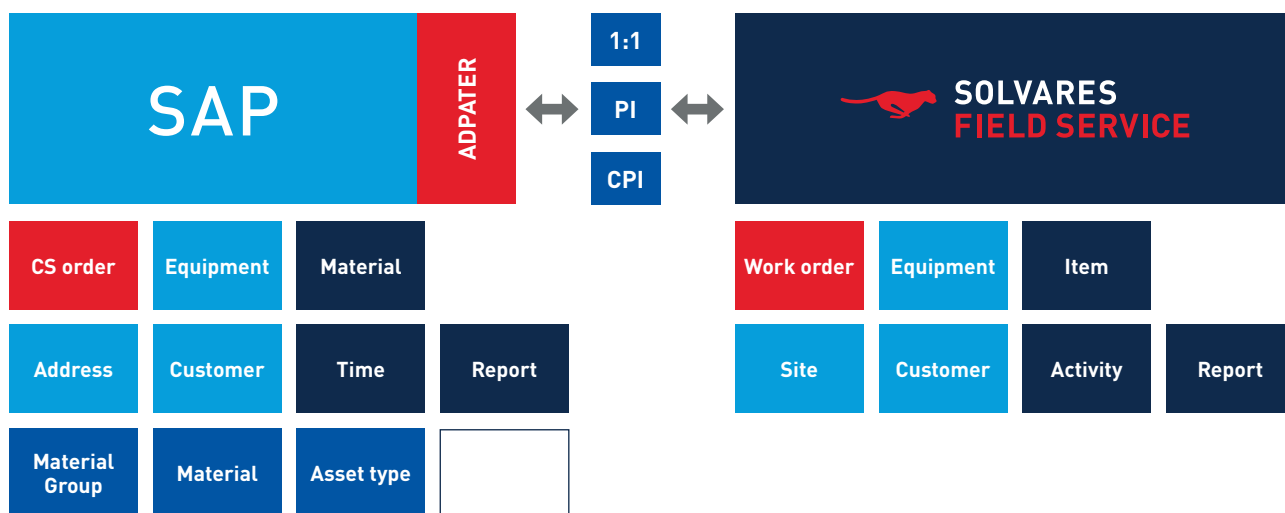

The solution

The Solvares Field Service SAP Adapter from CiancIT provides you with a connection between the FSM solution from Solvares Field Service and your SAP system. In close cooperation with Solvares FSM GmbH, this adapter was optimally adapted to the needs of both systems.

The standardization reduces the integration costs. At the same time, the adapter offers great flexibility for the implementation of customer requirements. Thus you get an optimal integration of the two systems.

The product

Solvares Field Service SAP Adapter

✓ Quickly ready for use

✓ Individually expandable

✓ Reduced integration costs
